

# Spring Boot Joke App

# Spring Boot Jokes App

1. Create Spring Boot Project from Spring Initializr
  - 1.1. Only select 'Web' and 'Thymeleaf' dependencies
2. Add Dependency: group: 'guru.springframework', name: 'chuck-norris-for-actuator', version: '0.0.2'
3. Create Service to return joke string from class `guru.springframework.norris.chuck.ChuckNorrisQuotes.getRandomQuote()`

# Spring Boot Jokes App (cont.)

4. Create Spring MVC Jokes controller
5. Map context root ("/", "") to Jokes view
6. Add Joke text to 'joke' property of Model
7. Return view name of 'chucknorris'
8. Create Thymeleaf view for 'chucknorris'.

# Spring Boot Jokes App (cont.)

9. Display Joke string property

10.Run App

11.Refresh for more Chuck Norris Jokes!
